## About SITED

SITED USA LLC founded in 1991 by Mr. Oliver Bruenner. Since 1995 SITED has been advising and training leading companies in the SAP environment, and has been responsible for more than 30 introductions and release changes. In 2003 we started introducing the DATANGO authoring tool in order to help companies train their employees, maintain working standardization and save money while using their ERP Systems. Our services are based on practical experience in the international business world. We also provide training services to other trainers and consultants who are looking to improve their training capabilities and become more professional.

## **AUTOMATION**

Automatically produce all your necessary learning materials – Documentation of your processes, eLearning demonstrations, live system navigation, exercises and tests in a simulation environment.

## **DOCUMENTATION**

With just a single click you can produce all kinds of documentation with a very small file size and high screenshot quality at the same time, in your desired format, e.g. Word, PowerPoint, or HTML.

## **SIMULATION**

Produce simulated environments in which users can learn all processes without input errors. Save time by reducing face-to-face training and give your users the ability to train at their own pace at any time of day.

## **COLLABORATION**

Use Datango collaborator to collaboratively compile and manage learning content. Coordinate the collaboration of your authors with uniform workflows and convenient check-in and checkout features.

## **EVALUATION**

Use the Datango test mode to identify the application's weak spots, determine the performance of your users, issue certification and enable direct feedback in a simulation environment.

## **LOCALIZATION**

Use the Datango automatic re-recording feature to convert the learning materials you produced into 40 different languages regardless of whether your authors know them or not!
