Anhang A

Within the project F InfoSys SK (Executive Information System of the Armed Forces) has been developed a peer-to-composite for guiding support and harmonization based on a heterogeneous system landscape. For this system, the need to train system administrators originated. The training period was set at 70 working days to 8 hours time.

The participants were already trained administrators in the areas of:

- Grundlagen der Netzwerktechnik /Cisco-Router / -Switches
- MS-Server 2003
- Citrix-Metaframe und Presentation Server
- Lotus-Domino-Server
- Linux Fedora, - Debian
- Sun Solaris 9
- Oracle Application Server 10g
- SAP logistics in the military operational environment, special development

Based on these above-mentioned Applications and operating systems, the participants were trained.

REFERENTENPROFIL SEITE 13/13

Name: Oliver Brünner

Because of this, and in this context, Oliver Bruenner is designed for subsequent software products:

- Netzwerktechnik /Cisco-Router / -Switches
- MS-Server 2003
- SQL-Server
- Samba Domain-Controller
- LDAP-Server
- Citrix-Metaframe / Präsentation-Server Terminal-Server Cluster
- Lotus-Domino-Server /Domino-Sync-Prozesse
- Linux Fedora, - Debian, -RedHut
- Firewall – und IDS-Systeme /TAP (Traffic Analyzer Port)
- Secunet Secuwall und Secusnort
- Viren-Scanner Standardapplikation AntiVirus und Amavis
- Sun Solaris 9
- Scripting
- Veritas Netbackup
- Veritas Cluster-Server 4.4
- Sphas SAN Control (Storage Area Network)
- Oracle Application Server 10g
- Oracle-CMSDK (Content Management Software KIT)
- Oracle DIT (Directory Integration Tool)
- Oracle OID (Oracle Internet Directory) –Usermanagement
- ICS-Server (Tactical situation replication)
- C2PC (Tactical situation management)
- ESRI ARC-Desktop (Analytical floorplanning)
- SDE-Datenbank (GeoCoordinate Country preparation)
- VS-Bearbeiter (TOP-Secret-Applikation)
- HP-Open View ServerView
- HP – Helpdesk Applikation
- Net-Op Remote User Support

The technical implementation of this training was realized with 7 modules to a total of approximately 3,800 A4 pages and Power Point slides.

In addition, the planning and coordination of expert speakers from the system development, the development of hourly and contingency plans, subscriber management and certification.

Maintenance of the daily operational availability of training facilities. Trainingduration : 70 Days.

Trainings: 4
