

August 17, 2016

Dear Oliver,

Thank you for the time you spent on the Teva Enterprise Project. Even though I started the project several months after you, I heard only good feedback on you and your work. Both Naomi and Ifat felt that you were an exceptional team worker and very flexible in his work approach and all your efforts are towards getting the job done for the set deadline. This skill is rare even in senior consultants but you proved to accomplish many tasks on time.

Thank you for being a very proactive team member and always going above and beyond to help other team members to achieve their deliverables. You also have a very positive, can do attitude that rubs off on the team.

I also want to thank you for contributing highly to the WPB work that you specifically were assigned in addition to the excellent content development skills when asked to help the Logistics team get caught up on their tasks.

I appreciate the time you spent at Teva and I wish you all the best in your future job assignments.

Sincerely,

Troy Guillotte
